- 3 SUPERSTAR
- 4 ELON MUSK'S MASTER OF COIN
- 5 PORTO-POTTY CLEANER

How to M•A•S•H

Using some of the finest elementary school prognostication techniques, we at NEXT are giving this schoolyard fortune-telling tool an update. All you need is a pencil and paper (and a friend for extra fun) to find out your future.

Spin Your Way to Your Lucky Number

To start, you need to draw a spiral in the circle to determine your lucky number. You can either just draw it and stop, draw it with your eyes closed, or draw it for a friend and stop when they say stop.

After the spiral has been drawn, count the number of rings in the spiral. Record your lucky number in the box.

Predict Your Future

The last step is to predict your future. Start counting up to your lucky number in the first box at Mansion. Stop counting lines when you get to your lucky number. Cross that item out.

Continue counting up to your lucky number and crossing items out, leaving only one option left in each section to predict your future.

Where will you live, who will you live with, how will you get to work and what is your job? Let the M•A•S•H game determine what your future holds!
