

AFTER AN INFAMOUS FOUR-YEAR HIATUS, New Zealand alt-pop pioneer Lorde is back and ready to introduce a whole new generation of teenage girls to Marlboro Reds and clinical depression. Her return has been highly anticipated with a die-hard fanbase itching for more (she's basically Britney Spears for children of divorce).

We're glad she took time off to find herself...but, while we wait for the album, do some finding of your own in this Lorde-themed word search.
